HIGHLIGHTS
FROM THE
1983 TAXATION YEAR

HIGHLIGHTS FROM THE 1983 TAXATION YEAR

Approximately 25,900 residents of the Northwest Territories filed personal income tax returns for the 1983 taxation year. Total income for these individuals exceeded 466 million dollars for an average income of slightly more than $18,000. About 75 percent of NWT taxfilers (19,400 persons) reported taxable income and paid, on average, about $4,400 in income tax.

Average income for Canadian taxfilers was about $17,000 in 1983, with the highest average income being reported by residents of Alberta ($19,536) and the lowest by residents of Newfoundland ($12,571). For Canadian taxfilers as a whole, 67 percent reported taxable income and paid, on average, about $3,800 in income tax.

For the Northwest Territories, taxfilers from the Fort Smith Region reported the highest average income ($20,152) and paid, on average, the most tax ($4,687). The lowest proportion of taxable returns (62 percent) was filed by residents of the Keewatin Region who also had the lowest average income ($12,495) and the lowest average tax ($3,055).

Employment earnings, specifically wages and salaries, continued to be the largest source of income for residents of the Northwest Territories. Wages and salaries accounted for almost 89 percent of declared income, the highest proportion for all provinces and territories. For Canada as a whole, employment earnings amounted to about 73 percent of income. NWT taxfilers also had the distinction of earning the lowest proportion of income from each of the four remaining income categories (i.e., transfer payments, self-employment earnings, investment income and income from other sources).

Thirty-nine percent of NWT taxfilers (10,060 persons) reported incomes exceeding $20,000 in 1983. In addition, more than 10 percent (2,681 persons) earned more than $40,000. At the Regional level, the proportion of taxfilers whose incomes exceeded $20,000 ranged from a high of 45 percent for Fort Smith Region (6,136 persons) to a low of 26 percent for Keewatin Region (500 persons). By comparison, about 32 percent of Canadian taxfilers reported incomes exceeding $20,000, with 6 percent earning more than $40,000.

Major differences in earnings for men and women are again observed for the 1983 taxation year. Average income for women taxfilers residing in the Northwest Territories was half of that for men ($11,909 as compared to $23,597). The situation was similar for Canadian taxfilers as a whole (average incomes of $11,126 for women and $22,261 for men). Provincially, the highest average income for male taxfilers was recorded for Alberta ($25,653) while the highest average income for female taxfilers was in Yukon ($13,376).

The distribution of earnings by men and women also exhibited major differences. Less than 3 percent of NWT women (336 persons) earned in excess of $40,000 as compared to 17 percent of men (2,345 persons). At the opposite end of the income scale, 45 percent of women (5,383 persons) and 20 percent of men (2,634 persons) reported incomes of less than $6,000. This difference is due in part to the large number of women with little or no earned income who filed a tax return in order to claim the Federal Child Tax Credit.

DEFINITIONS AND NOTES

DEFINITIONS

The following definitions, from Revenue Canada's Taxation Statistics, should be noted when interpreting the statistics presented in this report.

1. Returns Filed - includes all T1 Special and T1 General Individual Income Tax Returns filed for the calendar or taxation year, classified by the taxpayer's address at the time of mailing.

2. Taxable Return - an income tax return is taxable when a tax of one dollar or more is assessed.

3. Total Income - total income (in current dollars) is determined by summing the following components:

   a) income from employment

      - wages and salaries, taxable allowances and director's fees.
      - gross commissions from employment.
      - other employment earnings - adult training allowance, net research grants, tips and gratituties.

      (Note: allowable employment expenses have not been deducted from employment earnings.)

   b) Pension Income

      - Old Age Security pension.
      - Canada or Quebec Pension Plan benefits.
      - other pension or superannuation.

   c) Income from self-employment

      - net business income.
      - net professional income.
      - net commission income.
      - net farming and fishing income.

   d) Income from other sources

      - taxable family allowance benefits.
      - unemployment insurance benefits.
      - taxable amounts of dividends.
      - bond interest.
      - bank interest.

d) Income from other sources (cont'd)

- mortgage interest.
- income from trusts.
- annuity income.
- other Canadian investment income.
- foreign investment income.
- net rental income.
- net taxable capital gains.

e) Miscellaneous income

- alimony or separation allowances.
- scholarships, fellowships, bursaries and prizes for achievement.
- income from a guaranteed annual wage plan.
- taxable portion of payments from an income maintenance plan.

The following are not required to be claimed as income:

- workers' compensation payments.
- veteran's allowances.
- social assistance.
- guaranteed income supplement.
- spouse's allowance.
- welfare payments.
- mother's allowance.
- lottery winnings.

4. Taxable Income - that portion of total income remaining after all exemptions and allowances have been deducted.

5. Total Tax - the sum of Net Federal Tax payable and Territorial (Provincial) tax payable.

6. Income Class - each income category used to classify income distribution includes all returns with total income starting at the lower limit of the income range up to the but not including the upper limit of the range.

NOTES

1. All statistics included in this report were provided by or derived from information extracted from personal income tax returns by Revenue Canada - Taxation.

2. Information, with the exception of data on sources of income, is based on the universe of taxfilers rather than on a sample. These statistics were derived from Revenue Canada's "Locality Code Statistics File".
